

Gathering 1

Machine Settings:

Foot: Zigzag Foot A

Foot Pressure: 3

Needle Position: Center

Stitch Length: 3.0 - 4.0

Thread Tension: 1.0 - 2.0

Needle Thread: All-Purpose Thread

Bobbin Thread: All-Purpose Thread

Tip:

- * In the sewing application mode of the MC10000, MC10001 and MC11000, the gathering stitch is preset with the correct stitch length and tension.

1. Select the straight stitch. Set stitch length to 4.0, and thread tension to 1.0.
2. Place the edge of the fabric under the right side of the foot leaving an 8 cm (3") thread tail behind the foot. Do not reverse the stitch.
3. Sew to the end of the fabric without reversing, and leave an 8 cm (3") tail.

4. Sew a second row approximately 5 mm (1/4") below the first.
5. Gently pull the bobbin thread, gathering the fabric so that the gathers are evenly distributed on both sides.
