

MB-4 Machine Connection

Connect up to 3 MB-4 machines simultaneously and monitor the machines from your Digitizer MB software. The feedback lets you instantly see the current status of the machines.

Colorful Embroidery

Multi-color embroidery is now so easy. Simply insert one or more colors into any embroidery object with the click of a mouse.

Hoops

Create your own hoops whenever you need one. Rectangular, square, oval or round, the sizes are endless.

Lettering Enhancements

Lettering has been enhanced in many ways. Fixed length baselines with options for cap embroidery means no matter how long the name, it will fit in the cap frame.

Center out stitching sequence has also been added for caps. You can also select special characters from the new selection dialog and the addition of special monogram fonts make Digitizer MB lettering easier to use and more powerful.

PhotoClick

You can now crop your images for use with PhotoClick with rectangles or any shape you wish to create with the Freehand Shape tool.
